CHAIRMAN'S MESSAGE

“PURSUING CONTINUOUS
GROWTH AS A COMPANY
WITH AN EMPHASIS ON
DELIVERING EXCEPTIONAL
AND QUALITY SAFETY
TRAINING.”

Enertech Qatar was established in March 2004 to meet the growing demand for high quality and standardized Health and Safety training.

Since then, we have been making the utmost effort to develop our in depth expertise and uncapped professional capabilities that generates confidence and produces a winning formula of productivity and efficiency. We strive to innovate these methods of expertise to meet industrial standards.

“Pursuing continuous growth as a company with an emphasis on delivering exceptional and quality safety training.”

Mr. Hamad Abdulla Hamad Al Attiyah

MD'S MESSAGE

“WE STRIVE TO MAKE
SUSTAINABLE COMPANY
AND DEVOTE FOR IT”

I take this opportunity to thank our valued clients, whose continued patronage and confidence in our safety training inspires us to extend the best of services and enables us to provide value for their money.

Being dedicated to meet the growing demand for high quality, standardized health and safety training, we are focused to consistently exceed the needs and expectations of our clients through flexible safety training solutions that equip your workforce to deal with real life risks and circumstances in all related fields and maintaining continuous interaction with them to assess their emerging requirement, so as to be ready when the needs arise.

Enertech is committed to meet its Health, Safety, Environment & Quality responsibilities related to our activities, services, employees and customers.

We plan to achieve this goal through our strength - the Employees; and seek their continuous involvement in achieving the Company's objectives.

I therefore, seek continued patronage of our valued customers, cooperation of our employees and thank our well-wishers who have contributed to the growth of the organization.

“We strive to make sustainable company and devote for it”

Mr. Shareef P. Mohammed

THE TRAINERS

ABOUT ENERTECH

Founded in March 2004 to meet the growing demand for high quality, standardized health and safety training, Enertech Qatar sets International benchmarks in safety standards today. Located in the heart of Doha, Enertech is the Middle East's largest Health, Safety, and Environmental (HSE) Service Provider, offering flexible solutions that equip your workforce with the capabilities needed to handle real life risks.

Our wide range of courses is designed to help your business become fully compliant with Health and Safety regulations, which in turn demonstrates your commitment to employee welfare and corporate social responsibility while inspiring confidence amongst customers and suppliers.

More than a decade of operations, the company has gained much experience in Qatar and has preserved its commitment to provide quality services. The equipment inspection, certification & personnel certification departments were established later to meet the growing demand for these services from our clients.

INSPIRING CONFIDENCE
AMONGST **CLIENTS**

ENERTECH GUARANTEES YOU ACCESS TO:

Highly-qualified instructors

Individual support

Practical and interactive exercises

Suitable ways to study

Comprehensive portfolio of training services

- General Health & Safety
- Construction Safety
- Offshore
- International

Operator assessment services

Machine and accessories inspection

Cost effective consultancy solutions for HSE needs of the organization

Tailor-made training schemes upon client request

Gap-analysis to identify performance difference

MISSION

Enertech Qatar's mission is to meet and exceed the needs and expectations of our clients for the growing demand for high quality HSE solutions that equip them to deal with real life risks and circumstances.

Excellent staff shall be available to support the clients with all attributes necessary for progressing in their line of business with the required flexibility and capability in a rapidly changing environment.

VISION

Enertech Qatar forging ahead to become the versatile service provider in Health, Safety & Environment (HSE) field to cater different industries across the world. We set out to make a difference, not only to be leaders but strive constantly in order that we unlock new potentials and create the next generation of HSE Services.

VALUES

THEY CALL US PROFESSIONALS

We know how to do it and when to do it. We focus upon the work and its demands, to the exclusion of all else, and make things happen with utmost precision and care.

SAFETY BEGINS HERE

We value health and safety as the top most priority in the organization and develop individuals to their highest potential by promulgating a positive health and safety culture.

QUALITY IS A HABIT

We are the most-sought-after training provider in the region, due to our high quality standards, skilled workforce, remarkable services, and our use of the latest technologies.

EXPECT OUR BEST

We invest in the future by training our employees, so that they may develop the necessary skills to provide our customers with utmost quality, speed and flexibility.

UNDERSTANDING IS OUR GOAL

We listen, grasp, then help you understand your needs and guide you towards the necessary steps ahead.

ACCREDITATIONS MEMBERSHIP APPROVALS

Enertech
is proud of
its state-of-the-
art training
facilities

OUR
FACILITIES

Enertech is proud of its state-of-the-art training facilities which boast top notch equipment and technology, unrivalled in the region. We provide realistic training environments for a variety of situations, helping equip employees with real-time knowledge and experience.

LIFTING OPERATIONS FACILITY

Enertech possess facility for practical training of Rigging & Slings, lifting supervisor & appointed person to enhance the skills of the delegates for handling lifting operations through practical simulation of various scenarios using variety of lifting equipment and loads

SIMULATION STUDIO

The simulation studio includes a wide range of water-based scenarios and emergencies.

A simulation pool houses a helicopter simulator – Modular Egress Training Simulator (METS) – which replicates specific helicopter/aircraft configurations and is used in simulating a crash situation as well as teaching how to survive in water.

FIRE GROUND & SMOKE HOUSE

Our fire ground is a purpose-built facility that provides safe, realistic and practical training on the usage of various fire extinguishers, fire blankets and fire hoses on live fire.

Smoke house is a multi level simulator built to replicate the obscured vision scenario due to smoke & heat from the fire, wherein the delegates get a practice on escape techniques.

CONFINED SPACE TRAINING FACILITY

Built to mimic the working conditions present in confined spaces, such as manholes and chambers, this facility provides hands-on experience related to the hazards that are associated with confined space entry and gas testing.

LIFEBOAT COXSWAIN AREA

This area is a realistic lifeboat facility that was designed according to the relevant standards, wherein delegates working offshore can carry out their practical training, as if in a real scenario.

SCAFFOLDING TRAININGS

A wide open practical ground with all kinds of scaffold materials which provide hands on practical experience to the delegates on the safe work practices in the industry during erection, alteration & dismantling of the scaffold.

TRAINING ROOMS

All training rooms are equipped with the latest technology, including audio visual presentation systems and air conditioning; they can be used for lectures as well as Computer Based Trainings.

17 multi purpose class rooms with different seating capacities, specially designed with;

1. U - shaped table, to encourage communication between delegates and instructor.
2. Comfortable seating arrangements apt for the duration of the course.
3. Ergonomic high back chairs with lumbar support for longer duration course.
4. Interior features aspired from Aircraft seating arrangements.
5. Multi color chairs & table arrangement gives an elegant look.
6. HD audio, video recording for quality monitoring purpose.
7. Replicas of fire extinguishers, scaffolding components, lifting accessories and other training related equipment are provided inside the classrooms on display boards.
8. Cascade airline system with manifold fixed in the classroom provides the delegates an actual simulation of gas emergency response.
9. Modern water survival equipment and SWET Chair for demonstrating the donning & doffing of different seat belt arrangements of the helicopter.

ALL TRAINING ROOMS
ARE **EQUIPPED WITH THE**
LATEST TECHNOLOGY,

OUR GROWTH FOR THE
LAST TEN YEARS

Since 2007, we have provided over **3200 clients** with outstanding services through our dedicated and knowledgeable staff.

Our sales alone have grown substantially as well over the years, proving that investing with us will surely lead to great growth.

COURSES

COURSES INCLUDE:

Accident Prevention & Investigation	Dropped Object Awareness and Prevention (DROPS)
Acid Gas Injection Awareness	Basic Rigging & Slings
Advance Medical First Aid w/ Oxygen Therapy	Emergency Responder
Route Cause Analysis	Basic Scaffolding
Basic Fire Extinguisher	Environmental & Waste Management
Basic First Aid & CPR w/ AED	Fire Warden/Marshall training
Basic Pool Life Saver & water safety Course	Food Safety
Basic Route Cause Analysis	General HSE awareness
Basic Spill Response	General Welding Safety Awareness
Behavior Based Safety	Grinding Safety
Causal Tree Analysis	Half Face Mask (3M – 6000 Series) Training
Chemical Handling Awareness	Hand Power Tools Safety Awareness
Chlorine Safety	Handling & Transportation of Hazardous Material awareness
Basic Fire Fighting	Hazard Communication Storage & Handling of Dangerous Chemicals
Basic Fire Fighting	Hazard Identification and Risk Control
Basic First Aid & CPR	Hazard Management
Critical Safety Awareness	Heat Stress
Diving Emergencies and Oxygen Administration	High Pressure Water Jetting Awareness

Confined Space Entry	Tower Climbing Safety Awareness
Hot Work	Electrical Safety
Introduction to Construction Safety	Excavation and Trenching
ISSOW (OXY)	Basic Hydrogen Sulphide (H2S)
Job Hazard Analysis (JHA)	H2S BA
Job Safety Analysis (JSA)	Fire Watch
Log Out Tag Out (LOTO)	Defensive Driving (Heavy & Light Vehicle)
MSDS & Basic Spill Response	Flagman/Banksman
Risk & Prevention	Hole Watch
Risk Assessment and Human Factors	Permit to Work
Risk Awareness	Sand Blasting Awareness
Safe Use of Abrasive Wheels	Welding & Cutting safety awareness
Safety Officer	Working on Public Road Safety
Safety Watch	Working at Heights
Safety Leadership	Road Safety Awareness
Slip,Trip & Fall	Traffic Management
STOP Awareness Training	Causal Tree Analysis

The construction sector features significantly higher risks than other industries. The working environment is harsh – which renders safety, one of the biggest priorities in construction.

Enertech Qatar pays great attention to implementing safety trainings of the highest level, as well as regularly updating new knowledge and equipment.

We follow all relevant HSE standards and provide regular trainings in scaffolding, rigging & slinging, working at heights, lifting, confined spaces and so on.

We also provide on-site training as per client requirements.

COURSES INCLUDE:

Appointed Person (Lifting Operation)	Flagman/Banksman
Authorized Gas Testing	Hole Watch
Banksman	Lifting Supervisor
Basic Fire Extinguisher	Manual Handling
Basic Fire Fighting	Permit to Work
Basic First Aid & CPR	Rigging & Slings
Basic Rigging & Slings	Sand Blasting Awareness
Basic Scaffolding	Basic Scaffolding (Erection & Dismantling)
Confined Space Entry	Scaffolding Supervisor
Confined Space Entry & Rescue	Scaffolding Inspector
Confined Space Entry Supervisor	Towers for Users- PASMA Approved
Electrical Safety	Welding & Cutting safety awareness
Emergency Response Team	Working at Height Rescue
Excavation and Trenching	Working at Heights
Fire warden/Marshall	Working at Heights Supervisor
Hot Works	Operator Courses (Forklift, Crane, Tower Crane, Boom Lift, Manlift, Scissor Lift)
Fire Watch	Tower Crane Rescue

OFFSHORE

Offshore oil platforms can be some of the hardest work environments to handle, whether in the South or in the Northern hemisphere. At Enertech, we have history in providing top of the line safety trainings for offshore oil platforms; as a result, we have built sustainable business partnerships with all major oil companies and their subcontractors.

COURSES INCLUDE:

Confined Space Entry

Fast Rescue Craft (FRC)

Fire Watch

Hole Watch / Safety Watch

HUET Diver

Permit to Work

H₂S BA QP Approved

Travel Safely by Boat Initial, Further- OPITO Approved

T-BOSIET (Tropical Basic Offshore Safety Induction & Emergency Training)- OPITO Approved

T-FOET (Tropical Further Offshore Emergency Training)- OPITO Approved

T-HUET (Tropical Helicopter Underwater Escape Training)- OPITO Approved

Basic H₂S -OPITO Approved

HUET & Sea Survival

Basic First Aid & CPR

Advanced Fire Fighting

Authorized Gas Testing

Compressed Air Emergency Breathing System

We provide the mandatory safety trainings such as H₂S, T-BOSIET, T-HUET and Sea Survival amongst others.

INTERNATIONAL

We offer a wide range of international courses such as:

NEBOSH

NEBOSH Award in Health & Safety at Work
NEBOSH Award in Health & Safety at Work (Arabic)
NEBOSH International General Certificate in Occupational Health & safety
NEBOSH International Technical Certificate in Oil and Gas Operational safety
NEBOSH Award in Environmental Awareness at work
NEBOSH International Diploma in Occupational Health & Safety

HSE CONSULTANCY

With over 16 years of expertise in HSE, we are proud to support our customers through guidance and advice necessary to manage their HSE risks.

We come up with innovative solutions through an internal centralized research approach.

Our consultants with experience in various industry are ready to open their wide spread knowledge to offer all kinds of consultancy services including but not limited to;

Fire Risk Assessment – Building, Plant / Factory
& Project Site

HSE Inspections – Building, Plant / Factory & Project Site

Industry specific HSE Consultancy – Oil & Gas, Construction etc.

General Risk Assessment

Task / Work Specific Risk Assessment

HSE Culture Analysis and Development

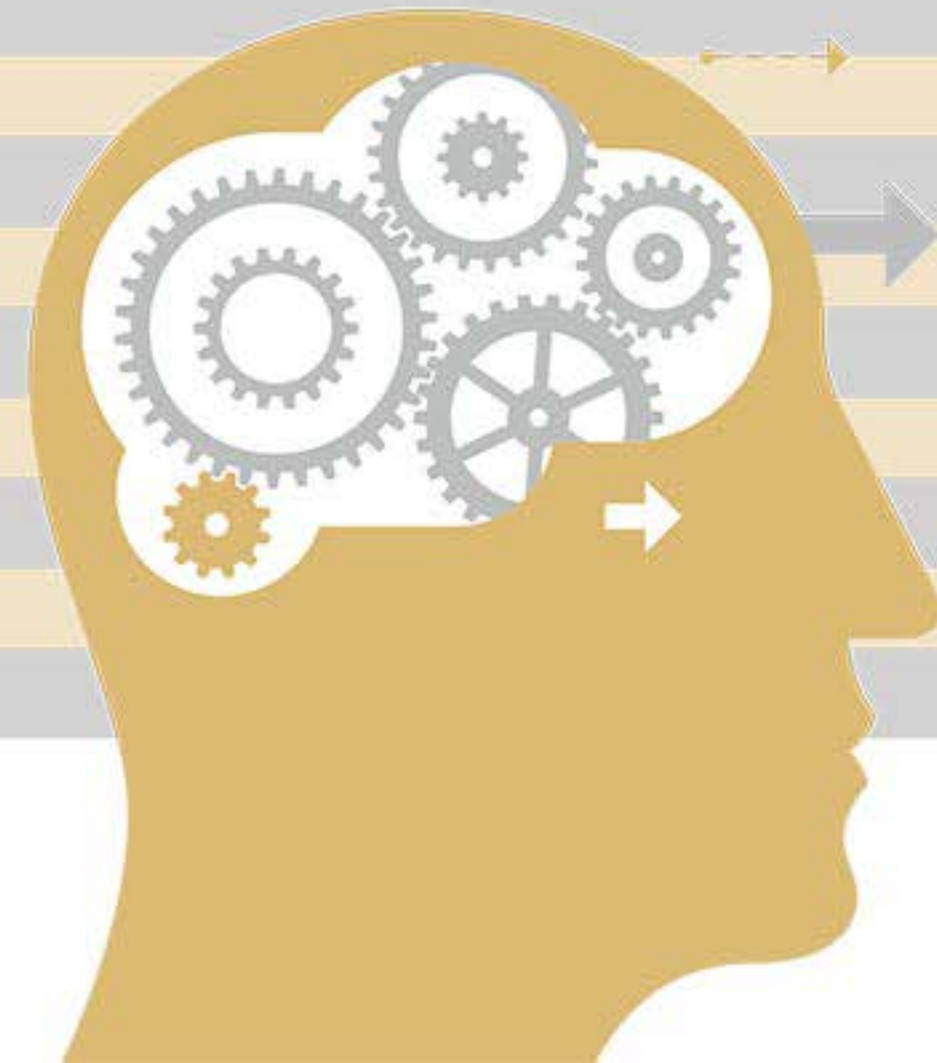

Behavioral Based Safety (BBS) Surveys

HSE Management System based on ISO &
other International Standards

Project HSE Plan

Emergency Response Procedure / Plan

Emergency / Fire Drill

COMPETENCY ASSESSMENT

Enertech is an ISO / IEC 17024 accredited company.

We accommodate our clients with operator assessment services related to Lifting Machines, Earth Movers and Other equipment. We provide the service at our facility, clients premises, on-shore as well as off-shore (Rig Platform, Vessel etc. for example)

OPERATOR ASSESSMENT

Manlift Operator
Forklift/Telehandler Operator
Mobile Crane Operator
Tower Crane Operator
Over Head Travelling Crane Operator
Boom truck Lorry Loader Operator
Excavator Operator
Wheel Loader Operator
Skid Loader Operator
BMU Operator
Cradle Operator
Hoist Operator

COMPETENCY ASSESSMENT

Basic Scaffolder
Basic Scaffolding Supervisor
Basic Scaffolding Inspector
Rigger / Slinger
Lifting Supervisor
Appointed Person for Lifting Operations

INSPECTION OF EQUIPMENT

Enertech is a LEEA Full Member & an ISO/IEC 17020 accredited company

The need for a reliable partner when conducting fast and quality inspection services for equipment, prompted us to invest into a new department, responsible for conducting machine and accessories inspection.

This new department has become a key pillar of our company, making us proud to have gained the trust of companies in Qatar.

WE PROVIDE INSPECTION SERVICES FOR THE FOLLOWING ON REGULAR BASIS:

LIFTING GEARS

Shackle
Webbing & Chain Sling
Full Body Safety Harness
Fall Arrestor
Tripod & Winch

EARTH MOVERS

Excavator
Wheel Loader
Skid Loader
Roller Compactor
Paver, Trencher, Grader, Crusher/Screening Machine

CRANE

Tower Crane
Mobile Crane
EOT Crane
Boom Truck/Lorry Loader

LIFTING EQUIPMENT

Forklift & Telehandler
Electric Stacker
Material / Man Basket
Vacuum Glass Lifter
Concrete Bucket

MANLIFTS

Boom Lift
Scissor Lift
Spider Lift

GENERAL EQUIPMENT

Generator
Cutting & Grinding Machine
Drilling Machine
Air Compressor
Welding, Grouting, Coring Machine
